

SHARING THE LIGHT

A SYMONS VALLEY UNITED CHURCH
CAPITAL CAMPAIGN FOR A NEW
SANCTUARY LIGHTING SYSTEM.

OUR VISION
TO REPLACE THE FAILED SANCTUARY
HOUSE LIGHTING SYSTEM WITH A
NEW LED-BASED SYSTEM.

OUR GOAL
OUR GOAL IS TO RAISE \$35,000 BY
THE END OF JUNE 2023.

OUR NEED

After 15 years of use, our Sanctuary lighting system is seriously failing and impacting Sunday worship and our rentals. Our plan is to restore light to the sanctuary and reduce energy consumption and associated operational costs with new LED lights.

SHARING THE LIGHT

A SYMONS VALLEY UNITED CHURCH CAPITAL CAMPAIGN

Our sanctuary house light control system, installed in 2008, has failed, and parts are no longer available to repair the system. The current “workaround” of using the breaker panel to turn the house lights on and off is causing the panel breakers and flood light halogen bulbs to degrade and fail. This situation is impacting worship and rentals within the sanctuary.

OUR VISION

To replace the failed sanctuary house lighting system with new LED-Lighting.

BENEFITS OF NEW LED LIGHTS

- LED lights use up to 85% less energy than our present bulbs. The cost of running LED bulbs will significantly save our operational costs in the long term.
- LED lights last up to 40 times longer.
- LED lights offer high-quality light output and greater flexibility for control over our present bulbs.

OUR GOAL

Our goal is to raise \$35,000 by the end of June 2023. Any excess or unused funds raised by this campaign will be directed to building maintenance projects.
